Remarks

1. Approval documents per AISC 303-22 §4.4. Please return within 14 calendar days with one of the actions above. Approval confirms the interpretation of the contract documents and accepts the connections; the detailer remains responsible for dimensional accuracy and fit-up (§4.4.1).

2. Items marked TBC are detailed with the assumption listed in the RFI log; do not fabricate these items until the RFI is answered.

3. Scope: Drafting and detailing only (connections per AISC 303-22 §3.2.3 Option 1). No structural design and no engineering seal. Sample project for demonstration.

4. Revision 2 — ERECTION NOTES ADDED (GROUND PRE-ASSEMBLY). Revised sheets (changes clouded, revision triangle 2): E1. New sheets: none. Void: none. All other sheets are unchanged from the previous submittal.
